Professional Summary

Full Stack Developer with a strong foundation in the MERN Stack (MongoDB, Express.js, React.js, Node.js) and Core Java. Passionate about building responsive web applications, developing efficient backend solutions, and continuously learning modern technologies. Currently expanding expertise in Spring Boot and seeking an opportunity to contribute technical skills, problem-solving abilities, and a growth mindset as a Software Developer.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Framer Motion

Backend & Database: Node.js, MySQL

Tools & Deployment: Git, GitHub, VS Code, Netlify, Vercel

Experience

React.js Developer Intern

March 2025 – June 2025

The Entrepreneurship Network (Limitless Technologies LLP)

Remote

- Developed and optimized interactive UI components using React.js, improving page load speed by 20%.
- Utilized Bootstrap and Tailwind CSS to ensure 100% mobile-responsive layouts across diverse screen sizes.
- Collaborated with senior developers to integrate backend RESTful APIs and manage application state.

Projects

Cloth Review Platform 📄 | *React, Vite, React Router, CSS*

- Engineered a dynamic review system featuring robust user authentication handled via the LocalStorage API.
- Managed application state using React Hooks alongside LocalStorage to persist user data across sessions.
- Implemented an elegant glassmorphism UI design and utilized Framer Motion transitions for a premium user feel.
- Structured scalable routing logic using React Router to cleanly manage product categories and review pages.

Developer Portfolio 📄 | *React, Tailwind CSS, Framer Motion*

- Developed a responsive personal portfolio website to showcase projects, technical skills, and professional profile.
- Built using modern web technologies with a clean user interface, smooth navigation, and mobile-friendly design to enhance user experience and online presence.

Regal Walk Web Application 📄 | *HTML, CSS, Bootstrap, JavaScript*

- Designed a sleek product showcase website focusing on interactive hover effects and smooth UI layouts.
- Ensured cross-browser compatibility and optimized static image assets by converting to WebP to drastically speed up initial page deployment.

Education
